Hurricane EZ

NEW GENERATION 2-PART URETHANE WET LOOK SEALER

- Mix & Use - No Dilution Necessary
- T³ True Tone Technology: Color Enhancement With Semi-Gloss Finish
- Hardens Joint Sand With Armor Bond
- Reliable Durability Surface Protection
- Fungal Guard Protects Sealer Film From Mold, Moss & Algae
- Breathable Water Based Sealer

Hurricane EZ can be used on concrete & clay pavers, natural & manufactured stone, travertine, flat & stamped concrete, segmental retaining wall block, concrete walls and exposed aggregate. Always perform a pre-test in a small area to verify performance and appearance before applying.)

Coverage Per Gallon:

APPLICATION	SQ FEET	SQ METERS
Sealing With Joint Stabilization	80-120	7.4-11.1
Sealing Without Joint Stabilization	200-300	18.6-27.9

Coverage per gallon once mixed. Single application. Actual coverage may vary depending on the type, age, condition, joint size and porosity of the surface, application method and other local conditions such as temperature. For more uniform coverage, a second coat should be applied after the first application has visually cleared and dry to the touch, usually within one hour.
