Introducing Jetty...an advanced surface sealer designed to enhance and protect natural & manufactured stone.

Jetty

WET LOOK HYBRID SEALER

- Deeply Enhances While Maintaining A Natural Look
- Advanced Formula For Natural & Manufactured Stone
- Superior Surface Protection Against Water & Salt Damage
- Resists Staining From Oil, Food and Other Contaminants
- High Performance Silane/Siloxane & Polymer Blend - Water Based
- Hybrid Penetrating & Film Forming Chemistry

Coverage Per Gallon:

APPLICATION	SQ FEET	SQ METERS
Natural Stone & Clay Pavers	200-400	18.6-37.1
High Density Concrete & Pavers	200-300	18.6-27.9
Low Density Concrete & Pavers	50-200	4.6-18.6

Coverage based on two coats applied wet-on-wet at right angles to first coat. Use approximately two thirds of the estimated amount on the first coat and one third on the second ensuring saturation and complete coverage. Actual coverage may vary depending on the type, age, condition and porosity of the surface, application method and other local conditions such as temperature.

Suitable Surfaces:

Jetty is designed for natural & manufactured stone (containing quartz or other silicas). Also can be used on concrete & clay pavers, travertine, flat & stamped concrete, segmental retaining wall block, concrete walls, exposed aggregate, unglazed tile and grout. Always perform a pre-test in a small area to verify performance and appearance before applying.
